FULL LOAD (FTL)

FTL is typically provided to manufacturers that have large quantities of goods to be transported and is offered at a pre-determined price. We provide FTL services to clients through bookings from our existing branches to any part of the country. This service is provided in both Open Body Truck and Closed Container.

Special contract terms based on assured monthly business with customized MIS. All sorts of cargo are delivered with utmost safety, care and ease. Our team establishes strong relationships with the authorities which provides you with a smooth supply chain experience.

Service Available throughout India.

OUR SERVICES

Customised Container

We also provide container transport service for our valuable clients, on demand. In this we load the container from the yard to the specified destination. This takes place only on contract .

OUR SERVICES

REGULAR PARCEL

We provide Daily Parcel Service to ease the regular need of the consumers. We firmly trust in transporting our client's consignment to the correct destination at an effective cost.

Regular parcel service: Mumbai - Chennai - Mumbai

A LEGACY OF BEING MILES AHEAD

In the fast-changing world, continuous connectivity and real-time communication have become the norm. The Indian Trucking industry is currently valued at \$130 billion and road vehicle transport about 80 % of the country's freight. One of the biggest task for the road transport industry is to be organized and move from traditional ways to a modern approach. Though the vehicles might move at a fast pace, the operations don't. Here comes the way to go for the Mahaveer Trransways. With the legacy behind, Mahaveer Trransways was founded by young generation to keep pace with modern innovation, rethink business practices and ease transportation. Using technology platforms and real-time algorithm, it was founded in 2017 with an aim to redefine the logistics landscape of India, making it reliable and efficient.
